

**2007 Depleted Uranium Users Conference
Papers Presented Table of Contents**

PRESENTER - FILE NAME	PAPER
Korzekwa, Deniece	----- Advanced Casting Modeling in Support of Uranium Casting
Workman, Andrew	----- Age - Related Mechanical Property Changes in Uranium - 6% Niobium Alloy
Hackenberg, Robert	----- Aging Studies of U-Nb Alloys
Cady, Carl	----- Constitutive Behavior of Depleted Uranium and U-6Nb When Subjected to Aging and Shock Prestraining
Lillard, Jennifer	----- Corrosion of Uranium: A Historical Review and Some New Perspectives
McCabe, Rodney	----- Electron Backscatter Diffraction (EBSD) Studies of Uranium and Uranium Alloy Microstructures
Ward, Anthony	----- Environmental Fracture Studies of Uranium
Goergen, Charles	----- Highly Enriched Uranium Blend Down at the Savannah River Site Update
Powell, Louis	----- Hydrogen in Uranium
Davidson, Ian	----- Inclusion Characteristics of Cast Uranium Products
Seals, Roland	----- Infrared (IR) Heating of Materials
Bird, Andy	----- Initial Trials in Microwave Melting of High Carbon Depleted Uranium Swarf
Jackson, Mark	----- Machining of Depleted Uranium Using Coated Cutting Tools
Ripley, Ed	----- Microwave Processing and Heat Treating of Metals
Fisher, Donald	----- Mobile Systems for Dilution of Highly Enriched Uranium and Uranium Containing Components
Bridges, Bob	----- Modern Metallography for Uranium Alloy
Givens, Kenneth	----- Modular Microwave Metal Melting and Casting Unit
Shrimpton, Geoff	----- Novel (Water-Free) Metallographic Sample Preparation Techniques for Uranium
Clarke, Amy	----- Shape Memory Effect Deformation Structures in U-6we.%Nb
Wilkins, Heather	----- Sputtered Depleted Uranium and Gold Multi-Layers for Applications in Inertial Confinement Fusion
Alexander, David	----- Structure and Properties of Base Metal and Weldments in DU Plate
Brown, Donald	----- Texture and Strain Development During Deformation of Depleted Uranium
Jessen, Nick (Keynote Speaker)	----- Weapons Manufacturing in the 21st Century
